Evidently the first group, holding a one-half interest, are the descendants of Bartholomeus son of Roletus, and all the rest, comprising the other one-half interest, are the descendants of Johannes, the other son of Roletus. The details revealed in the text of the reconnaissances clarify the relationships. Some of the same parties are mentioned in other terriers at the ACV, especially Fl 402, fol. 588.

Previous terriers cited:

Petrus Garineti of Cudrefin (fol. 98v, during lifetime of Bartholomeus Gachet)

Andreas de Arsina of Estavayer (fol. 98v, during lifetime of Bartholomeus Gachet, and after Petrus Garineti; also fol. 120v; 122v with implied dated after June, 1482)

Regarding property held by Petrus Gachet of Payerne, “**recognite per predictores suos et predecessores dictorum Gachet venerabilibus religiosi conventus ville Staviaci**” (fol. 105v), implying that some of the property was subject to the convent of the Dominicans in Estavayer.
