

The main interest of this volume is a list of the bourgeoisie as of January, 1688. The notice at the top of the list indicates that it is known to be incomplete, to the extent that people could not be found, or their baptismal names were not known, or their status was questionable. However, the list is formatted with brackets in such a way that it clearly shows the sons and grandsons of the heads of family. This information has been shown here by indentations. For example, the first entry shows Samuel Asperlin as the head of the family; the names of his four sons are surrounded by a bracket, and listed below with one level of indentation. There is also a bracket after the name of Benjamin Asperlin, but no names within that bracket, probably indicating that he had at least one son whose name was not known to the enumerator. Empty brackets are shown by an indented ellipsis below.

Several names in the Pollier family were added in what appears to be a much later hand, indicated below in italics. Apart from the Pollier family, all the other entries appear to have been made at the same time and are therefore assumed to represent the state of the bourgeoisie in January, 1688.

« Rolle des Citoyens & Bourgeois de Lausanne, vivants au mois de Janvier 1688, selon le recueil qu'en a fait Ferdinand Bourgeois, mais est à remarquer qu'il y en a encore quantité qu'il n'a peu encore decouvrir et d'autres dont il ne sait les noms de baptesme qui ne sont icy inserés et d'autres qui le dissent estre Bourgeois et Citoyens dont je doute s'ils le sont. »
