ACV Dp 16 and Dp 109/3 Pierre Chuard, notary at Payerne 1512-1564.

Abstracts prepared from the microfilms by John W. McCoy (RealMac@aol.com) *© 2013.*

Genealogical information from entries marked **M** (marriages), **A** (assignaux), **T** (testaments), **I** (immigrants), or **P** (partages) have been added to the Dutoit database at www.rootsweb.com/~chevaud/dutoit.

There are two "first registers" for this notary, one under the seal of the decanate of Avenches 1512-1514, the other under seal of the city of Payerne 1515-1522. The simplest explanation is that the notary began his career in his home town of Cugy about 1512 (perhaps a little earlier, as the register for that period is missing some pages at the beginning), then moved to Payerne in 1515. However, there are also multiple registers at later periods whose relationships are not well understood. There are several different hands, but all the registers show the characteristic small paraphe of the notary. It may be that he had one or more clerks working for him.

At some point, portions of several of the registers of this notary became detached. Later, the detached sections of two of these registers were incorrectly recollated. The "registers" now catalogued as Dp 16/7 and 16/8 turn out to consist of several sections that are missing from Dp 16/3 and 16/4. In several cases, this provenance can be proved conclusively, because a transaction that starts at the end of one isolated section is completed at the beginning of another section, without a break in the text and with perfect continuity of the folio numbers. In other cases, a few folios have been lost between the separated sections.

The relationship among the registers of this notary are so complex, we found it useful to display them as a table:

Description	ACV classification	Family History Library Microfilm number
Primum registrum Petri Chuardi notarii de Cugiez sub sigillo decanatus Adventhice recepti et sigillati, 1512-1514	Dp 16/5, 129 fols, but missing fols. 1-16.	996658, item 2

Fragment of untitled register of partages, 1554-1558, but with a copy of a testament originally recorded by another notary in 1513	Dp 16/14, 9 fols., likely not consecutive and out of sequence (Arabic foliation), then fols. 20-43 (Roman numeration), items that are not partages begin at fol. 33	996661, item 2
Untitled register fragment, 1533	Dp 16/7, first section, fols. 1-21	996659, item 1

For the texts that appear to be from the hand of the notary himself, there are significant differences from standard Latin and French, even for the period. Among the orthographic peculiarities, we may mention:

- Names and words that today end in *–an* are usually rendered *–am*: probably the best example is the surname *Jan*, which this notary almost always writes *Jam*. Also, this notary persisted in writing *Joham* instead of *Johan* or *Jehan*, as most of his contemporaries did, for the modern name *Jea*n.
- He often writes *ou* where we would use *au* today. Also, we find *ou non de* in place of *au nom de* (and for purposes of transcription, we always render this as *ou nom de*, to avoid unnecessary confusion).
- He often writes *–ent* for the ending of the present participle, where most of his contemporaries had already adopted the modern usage, *–ant*. However, he always writes *demorant* or *demourant* (modern *demeurant*).
- The evolution of the French word *bourgeois* can be seen. The notary first writes *borgoys*, later *bourgoys*, and finally *bourgeoys*.
- The Latin names *Anthonius* and *Anthonia* were transformed into French for this notary as *Anthoennoz* and *Anthoenniz*!
- Adjectives intended as singular frequently are written with the plural ending. For example, "Le *susnommés* Pierre", or "ledit Pierre comme *heritiers*", clearly singular from the context.

Dp 16/6 1519-1555

This untitled register consists of two parts. The first, here designated **Dp 16/6a**, consists of 78 numbered folios followed by two unnumbered leaves, a register beginning in 1523 (but the contents have mixed dates, at least as early as 1519), and ending in 1534. This section is followed by folios numbered 1 to 207 (but there is no folio 101, and folios 122-165 are lost – but see below, Dp 16/7, where the missing folios have been found!), containing very detailed partages, but nothing else. This second section is here designated **Dp 16/6b**. About half of the front cover of Dp 16 is missing; it shows a few indistinct notations, but nothing to suggest the provenance or purpose of this register. The inventory of the ACV refers to this as a "registre de partages des rogations". Most of this is in the same hand, but it is not that of the notary Pierre Chuard. However, there are some corrections and marginal notations in Chuard's hand, as well as notations that copies of various items were made by Benedictus de Mediavilla (or Myeville). A notary of that name worked in Payerne in the last half of the 16th Century, but very little of his output seems to have survived. One possible explanation for this register is that it contains various transactions that were overlooked when the main registers were compiled. Also, it appears that the transactions were roughly sorted before Dp 16/6a was compiled, as everything up to fol. 27v concerns the 1520's, while a long section beyond that point concerns the 1530's, interrupted briefly with several earlier items. About the last 10 folios of Dp 16/6a are very difficult to read because the ink has bled through from the other side, as if one side of the paper was incorrectly manufactured and was too absorbant.

Dp 16/14

Untitled register, incomplete, the first 9 folios (or at least some of them) with Arabic foliation, and fols. 20-43 with Roman foliation, but without an obvious break in the text, consisting of partages, but beginning at fol. 33, with other items as well.

[Fol. 1 ? (no numbers visible on the first 2 folios)]

Pierre Brossiez et Jehan Brossiez freres filz de feu Claude Brossiez de Corselles segnoriez de Payerne, partage, but missing at least one complete folio, since the text up to the end of [fol. 1v] concerns the share of Pierre Brossiez, and the text from the top of [fol. 2] to the end concerns the share of Jehan, without the usual introductory phrases for his share. Toward the end, about the middle of [fol. 2v], the text concerns assets and obligations that they continue to hold jointly, 04 apr 1554.

(The second unnumbered folio, designated here as [fol. 2] , is followed by fol. 7.)

Fol. 7

The text begins with the share of Jehan, the other party is Pierre, but some of the text ("affronte la terre de l'autre partage") seems to imply that this is a second partage between the same two parties. In any event, it is incomplete, there is no conclusion and no date. Is it possible that this is the missing folio that should be inserted between [fol. 1] and [fol. 2] ? It is not even certain that this item concerns the same Jehan and Pierre Brossiez, as their surname does not seem to be mentioned at all on this folio.

(The next folio is apparently unnumbered, but the verso continues on to the folio numbered 16. Hence, we designate this folio as 15.)

[Fol. 15]

Jehan Wauthiez et Pierre Vuauthiez freres, partage, 12 jun 1556 (for the share of Jehan only).

Fol. 16v

Continuation of the same partage, for the share of Pierre Vauthiez, ending on fol. 17, "donné comme dessus". However, on fol. 17v we find several more items for Pierre Vauthiez, then "le second partage pour Johan Wauthiez", with several more items, and "le premier partage pour Pierre Vuauthiez, two more items.

(Fol. 17v is followed by fol. 20, but with Roman numeration.)

Dp 16/7a 1533

Folios 1-21 from a register of Pierre Chuard, the remainder not yet located.

As the first 67 folios of **Dp 16/3** are missing, and should have included dates before 1537, we initially thought that the first 21 folios of **Dp 16/7**, a section here designated as **Dp 16/7a**, were originally part of **Dp 16/3**. We give these 21 folios here. But they are apparently not the missing folios 1-67 of **Dp 16/3**. Instead, we found those 67 folios in **Dp 16/8**, along with most of the other "missing" folios of **Dp 16/3**.

END of section; for the remainder of **Dp 16/7**, see **Dp 16/6**.

Dp 16/3 and 16/8(a,b) 1536-1548

The original register covering at least the years 1536 to 1548 was at some point divided, or else fell apart, into a number of separate sections. The same thing happened to another register, with dates from 1548 to 1564. Later, the detached sections were reassembled incorrectly, resulting in the items labeled Dp 16/3 and Dp 16/8. In some cases, the sections were separated in the middle of a transaction. Also, a few folios between the sections seem to be lost. Some of the material in this register, beginning in 1541, has been found, likely in a preliminary form, in Dp 16/15a.

The reconstructed register containing dates from 1536 to 1548 begins with the first 67 folios of **Dp 16/8**, which correspond to the missing folios of the same numbers from the next item, **Dp 16/3**. There are references in the minutaires that call this the "second register".

(Is there a modern equivalent for this transaction? What are these verbs? *Associo* has a possible meaning, to take someone into a partnership. For the second verb, we suppose the original form was something like *affraresco*, for which we found no citations at all. *Fraternizo* is sometimes cited as the Medieval Latin root of modern fraternize, and it was presumably the source of *affraternizo* as well. We found a few citations of "premodern status or fraternization contracts", usually with reference to Mafia brotherhoods. The implication of these verbs is to bind two people as if they were in fact brothers, with all the attendant rights and obligations, here specifically with respect to property and succession.)

Minutaire, 1528-1531: Dp 16/11 and Dp 16/12

This register consists of **Dp 16/11**, which contains fols. 1 to 264, and is continued in **Dp 16/12**, containing fols. 265 to approximately 310. The last few leaves are badly damaged. The relationship to the other registers is revealed by "Memoria" referring to the "second register" of this notary (**Dp 16/2**), the same procedure this notary used toward the end of his career: a similar relationship exists between the minutaires for 1563 and 1564, and the register for that period.

Dp 16/11

Fol. 50a

Memoria concerning cancellation ? of a debt in favor of the said Johannes Regnard by Georgius Marcuet de Cugiez, same date.

(The text on fol. 50a verso appears to be a description of two properties, apparently relating to similar descriptions on the unnumbered leaves here designated as fols. 50b, 50c, and 50d. The whole text appears to begin on fol. 50d with a recitation of debts, die Jovis post festum Pache, 01 apr [1529?], before Nobilis Girardus Mestralis locumtenens [Advocati Paterniaci?] and others, possibly a list of debts owed by Petremandus Samblonet ? burgensis Staviaci. But, working backward from fol. 50d, since fol. 50d verso is blank, we find other debts:

Fol. 50c

Petrus Fiwaz alias Pontoux de Magnyn (owes?) Anthonius Bonjour 12 florins, die Jovis post Sebastiani.

Claudius filius Johannes Ruerat filii quondam Oliverii Ruerat owes (the same Anthonius ?) 13 testones, same date.

Claudius Buaschiz owes (the same Anthonius?) 7 florins 6 gros, same date.

Jaquetus Grivat owes the said Anthonius 23 sols, same date.

Fol. 50b

At the top of the page, the notation “Pro domino de Pringin” (by 1529, the Seigneur de Prangins was Noble George de Rive). This is followed by descriptions of 5 properties evidently in the territory of Payerne, but without any obvious connection between them. At the bottomof the page, separated from the other items by a line drawn across the page, is a separate item, but lined out:

Anthonius Ansel alias Perrucet de Villeloz ? parrochie Staviaci loz Gibloux owes Johannes Ducetaz 45 sols for the remainder of money owed ? , die Jovis post … ? (obscured by dark stain).

Fol. 50b v

However, on fol. 50b verso, are two more short descriptions of property, likely the continuation of the item on fol. 50b “pro domino de Pringin”. After a few blank lines, this text ends by specifying the price, “precio centi scutorum solis”, witnesses Ludovicus Ansel and Aymi ? Besson, also mentioning Ludovicus Plumetaz, dated die Jovis post Conceptionem Marie 1528.

There are also two descriptions of property, and possibly also a debt, on fol. 50a verso. It is not clear how these items relate to what precedes or follows, if at all.

[1] Elsewhere, the innkeeper, Maurice Borsey, is identified with the hospitium *inter signi Ursi*. The script could be either *Urci* or *Arci*, and since we found no other place in these records where *Ursus* was spelled with a *c*, which would be very illogical for a second declension noun whose nominative must use the *s*, we think this scribe misunderstood the name, substituting *Arci* for *Ursi*. The scribe cannot be identified with certainty, the small paraphe of Pierre Chuard is not found on this page.

[2] What is the subject of these verbs ? The ending is clearly *–ent*, indicating third person plural, but no such subject is found in the text. We suppose it is intended as an impersonal "they". The next problem is the verbs themselves: the first is probably some form of *assisto*; the expected tense is either perfect or pluperfect, and since the event is here being reported as a rumor, probably the subjunctive should be used, thus either *astiterint* (perfect), or *astitissent* (pluperfect). The latter form seems the best fit. But what to make of *rusticent*? It should be the same tense, and if derived from *rusticor*, it should be *rusticatus essent*. Or, alternatively, the verb might be derived from *resto*, badly written. In that case, we expect *restitissent*. Therefore we suggest the solution *astitissent et restitissent* written as *assistent et resticent*, omitting the reduplicated syllable from each and altering the spelling of the second verb.

[3] Again, what is the verb, apparently *mentiffacerent*? *Dixerit* is clear, the subjunctive perfect tense, third person singular, from *dico*, and so the next verb should be the same tense, presumably from *mentifacio*. But instead of the expected *mentifecerit*, we find what looks like the subjunctive imperfect tense, third person plural. The root of the verb can be questioned as well. If the priest is accused of "deceiving the good people", why not use *mentior*? Or has the scribe created a new verb, *mentifacio*, conflating *mentior* with *mentionem facio*, to make mention of ? Should the plural number be interpreted again as the impersonal "they", "and the good people were deceived" ?

[4] Following the analysis in footnote 2, we suggest *assisse* should be read as *astitisse*, the perfect infinitive, omitting the reduplicated syllable.

[5] The verb is written apparently ēp̧cerat or possibly ēp̧terat. The only solution that comes to mind is importaret.

from the other side of the paper), 31 mar 1529, ex relacione domini Advocati et quem ? plenorum dominorum consulii factum. (It is possible that this Franciscan monk from Lausanne was preaching the Reformation at an inn in Payerne, or was suspected of doing so. The text specifies *cabriolus*, *=capreolus* ? , and seems to say that this animal was carried in the cart – should this be understood as a substitute for the paschal "sacrificial lamb"? or as an insult to the Pope? The innkeeper clearly thought something was inappropriate.)

It is of particular interest because if covers the years leading up to the occupation by Bern.
