

ACV Ff 32 Rentier for the Priory of Lutry, circa 1514.

Abstracts prepared by John W. McCoy (RealMac@aol.com) © 2025.

This terrier has been digitized on www.familysearch.org : [Image Group 102553322](#)

The 19th Century cover says “Rendier de censés du prieuré de Lutry, avant la Réformation, riere Lutry & divers autres lieux. Non daté.” A flyleaf also specifies “~~Redevances au clergé de Lausanne, avant la Réformation.~~ Rendier de la perception des censés du prieuré de Lutry, riere Lutry & divers autres lieux. Non daté.” Also, on the first folio, there are two identical titles in different 16th Century hands, “Rendarum sive collecta censum prioratus Lustriaci apud Lustriacum.”

The list of tenants is arranged by location. While there are no dates in the text, the names of the reconnaissants correspond well with the existing reconnaissances by Petrus Marchiandi circa 1500-1514 in the terriers Ff 32 bis, 33, 34, and 35.

In effect, this volume serves as a master list of the rights of the priory around 1514, many or most of which can be found in the terriers compiled by Petrus Marchiandi roughly 1500-1514. At the same time, Ff 32 also serves as a check on what has been lost from Petrus Marchiandi's project to document the rights and income of the priory, and in a few cases it helps establish what was on a few pages that were torn out of those terriers. The entries in Ff 32 list the names of the reconnaissants and the total amounts that were owed annually, which can be compared with the terriers. The amounts are here generally rendered in French, as a matter of convenience.
