

ACV FH 165: Fiefs of Noble Claude Dunant at Féchy, St. Livres, and Gimel 1574, commissaire Jean Barbier.

Notation from about 1725 says that folios 154-175 are missing (in fact, the missing folios are 159-174), and that an extract labeled B had been made in the past, used by Jean Benoit Gignilliat for “une renovation imparfaite” in 1682. The property was sold to LL. EE. In 1723 by Messieurs Fels who had purchased it from the heirs of Imbert Bégoz, successor of the said Noble Dunant, in 1715. The dates of the reconnaissances in this terrier, and of earlier reconnaissances cited in it, reveal something of the chronology of the Dunant family.

The reconnaissances are not particularly detailed, but they are still useful for establishing dates of the censiers. The repertoire missed several reconnaissances and misstated the surnames of several people; these errors corrected below.
