

Fm 52 Corcelles area 1437 to 1500

Damaged volume of reconnaissances, about 72 folios. The corners are eroded so that no folio numbers are visible. There is no répertoire or title page, and the volume as it stands today may be incomplete. The back of the last folio says "Rentes de l'an 1611". Numeration below is reckoned from the first surviving folio dated 1451. Reconnaissance signed by Petrus Lombard.

The fief involved in the first reconnaissance results from the death of Jacobi Paquerot filii quondam Johannis Pacquerot: "de morte et obitu quodam Jacobi Paquerot filii quondam Johannis Pacquerot, A Oddeto de Rippa burgensis paterniaci filio quondam Jaqueti de Rippa tanquam titulum et actionem habente in medietate bonorum predicti quondam Jacobi Paquerot necnon Marguarete et Ysabelle sororum liberorum dicti quondam Johannis Pacquerot virtute certarum situationum dotis necnon vigore cuiusdam donationis inter vivos sibi Oddeto facte per Margueretam sororem dicti Odetti relictamque quondam Valcherii Corde de Novo Castro tam nomine suo quam gubernatoris liberorum suorum et dicti quondam Valcherii de bonis et successionibus suis dementis per obitum dicti quondam Jacobi Pacquerot necnon Marguarete et Ysabelle sororum liberorum dicti quondam Johannis [Pacquerot, Et a Perronnete uxore Johannis] Fabri alias Proudou filia Beriardi douz Chastelard alias Violie civis Lausannensis et Francesie eiusdem Beriardi uxoris filieque predicti quondam Jaqueti de Rippa tanquam heredes et actionem habente in reliqua medietate predictorum bonorum ex successione legitime" (The text in square brackets appears in the parallel text in other reconnaissances in this volume, but was omitted in the first reconnaissance!)
