

ACV Fn 316, for the Hospitale et Capella Sancti Johannis Jherosolimicam de Melduno, commissaire Petrimanus Burichet, 1437-1465, with additions to 1510.

Abstracts prepared by John W. McCoy (RealMac@aol.com) © 2022.

This terrier has been digitized on www.familysearch.org : [Image Group 101697081](#)

Only the index and introductory material were initially copied. Notes by the ACV indicate later additions to 1483 and call the commissaire Petrus Barichet, even though his name is clearly written Petrimanus Burichet in the text. As of 1437, the rector of the chapel was Frater Petrus Berthodi. There are two separate sections in the text, designated “A” and “B” by the ACV, numbered separately, each with its own index. Now that the digitized images are available, more details can be extracted.

A great number of the obligations recorded here, in spite of the various ways they are expressed in the terminology of the day, were in fact loans by the hospital to individuals at 5% simple interest with no term. These obligations were perpetual, the annual interest being paid sometimes for generations, until a redemption or “rehemption” was made by a separate repayment of the original principal. The hospital, as was the custom at the time, served as a banker or mortgage lender and supported its activities through its interest income.

The structure of this volume is possibly less complicated than it appears. The main part of the “A” section appears to include fols. 1-208v only, intended as reconnaissances and other instruments recorded for the benefit of Frater Petrus Berthodi, rector of the hospital, whose tenure extended at least until 1461, and then in 1464 for his successor, Frater Leonardo de Castanea.

The main part of the “B” section includes fols. 1-235 (but fols. 225-235 are a duplication of fols. 209-218v, with some blank folios intervening – the “B” section thus properly ends at fol. 218v), consisting of reconnaissances and other instruments recorded for the benefit of Frater Leonardus de Castanea, commenced by the same Petrimanus Burichet die Mercurii post festum Sancti Galli Confessoris 1464. In other words, the “A” and “B” sections constitute two successive terriers or inventories for the properties and rents subject to the hospital. They overlap, to the extent that material from the tenure of Frater Leonardus de Castanea was also added to the earlier “A” terrier begun in 1437.

The remaining material is harder to characterize, but the additional folios from the “A” section and from the “B” section seem to belong together. Together, they contain a series of folios numbered 1-47 (at least one of those missing), plus additional, unnumbered folios and some stray scraps of paper that are now attached or inserted. The numbered portion of this material has an associated repertorium that validates the internal foliation. It contains a sort of digest of materials from the “B” section, but at fol. 45 a series of items from the 1480’s is found. It is not yet clear if the unnumbered folios form a continuous sequence, or if they all belong together at all, but they include mainly items from the 1480’s as well, possibly a continuation from fol. 47.

Once it was realized that the numbered folios from the end of the “B” section belonged with the numbered folios from the end of the “A” section, we moved all of these miscellaneous folios from the “B” section to the appropriate place in the analysis of the “A” section, with indications of where each folio is placed in the physical volume as it exists today. These pages – the entire “rentier” section – might best be characterized as rough notes and preparatory material for the next terrier, compiled by Petrus Burichet for Frater Glaudius Petrodi, then rector of the hospital, now catalogued as Fn 319, with dates 1480-1483. (Fn 319 lacks all introductory material and does not seem to cover all of the territories represented in Fn 316, so it may be that additional volumes in the same series have been lost.)

Preceding terriers include Fn 313, at least in part (one of the sections of Fn 313 is an inventory of documents in favor of the hospital compiled by Frater Leonardus de Castanea himself, organized into “fardelli” or bundles).

(Fol. 135v, ACV fol. 136v, is followed by fol. 137, ACV fol. 137, thus bringing the two foliations temporarily into alignment at this point. However, ACV numbers fol. 137v in error as fol. 138v, then resumes the correct sequence 138, 138v, etc.)

(ACV fols. 209-293 comprise a separate subsection, still apparently part of the « A » section, with manuscript folio numbers 1-47, then 5 unnumbered folios, followed by an index (ACV fols. 292-293) to this section (repertorium huius libri), referencing the manuscript folio numbers starting with 1 and continuing to 40. Because the index refers separately to this section, we follow the separate foliation. This small section is followed by the « B » section, with a separate foliation beginning with 1, ACV fol. B 1. It will be observed that this section duplicates or summarizes the items at the beginning of the « A » section. The ACV considers this subsection a « rentierrière les mêmes lieux, 1480, 1483 », in spite of the presence of dates as early as 1437, and with the signature and paraphe of Petrimanus Burichet as late as 1465. The material from 1480-1483 and later, with at least one item dated 1510, in addition to one marginal notation dated 1511, looks more like an effort to maintain an inventory of the documents in favor of the hospital, rather than a « rentier », a record of the amounts due from each individual .)

10 (ACV 220) Jacobus Pini notarius et burgensis Melduni, 18 jun 1457, with paraphe of Petrimanus Burichet.

11 (ACV 221) Jacobus Pini clericus burgensis Melduni, 04 dec 1457, with paraphe of Petrimanus Burichet.

11v (ACV 221v) Anthonius Nicod suctor ? (or possibly sartor, the script is not very neat) burgensis Melduni, 13 jan 1460, with paraphe of Petrimanus Burichet.

12 (ACV 222) Petrus Perrier de Nerioux, die Veneris ante festum Nativitatis Beati Johannis Baptiste 1461, with paraphe of Petrimanus Burichet.

(Fol. 12 is blank, then at the top of the next folio, xxvii, there is a modern pencil notation, likely in the hand of Raoul Campiche, « Les folios XIII à XXVI étaient en blanc », the implication by comparison with similar notations in Fn 310 being that the blank fols. 13-26 were removed during a restoration of the volume. Thus, previous archivists used and respected the original foliation. The new foliation of the ACV treats fol. xxvii as fol. 223. Were these folios actually blank ? The repertorium for this subsection, in a 15th or 16th Century script, does indeed skip from 12, Petrus Perret, to 27, Petrus Perrier.)

27 (ACV 223) Nerioux

27 (ACV 223) Primo, Petrus Perrier filius quondam Johannes Perrier de Nerioux, die Veneris ante festum Nativitatis 1464, with paraphe of Petrimanus Burichet, and further subscription, « Predicta omnia vendicione, empta, et exscambiata prenomminatus Frater Leonartus dicto recognoscenti laudavit etc. salvo jure suo et alterius cuiuscunque, et pro justa satisfactione habita etc., datum 03 nov 1465 », with paraphe of Petrimanus Burichet.

28 (ACV 224) Nicolaus (Nicoletus) Danget, die Veneris ante festum Nativitatis Domini 1464, with paraphe of Petrimanus Burichet.

28v (ACV 224v) Jandictus Nicoletus Danget, 03 nov 1465, with paraphe of Petrimanus Burichet.

29v (ACV 225v) Petrus Motitaz alias Guilly de Tierrens ? (uncertain script, abbreviated) morans apud Nerioux, die Veneris ante festum Nativitatis Domini 1464, with paraphe of Petrimanus Burichet.

30v (ACV 226v) Petrus Motitaz alias Guilly de Tierrens ? morans apud Nerioux, die Veneris ante festum Nativitatis Domini 1464, with paraphe of Petrimanus Burichet.

31 (ACV 227) Idem Petrus Motitaz alias Guilly de Tierrens ? morans apud Nerioux, 03 nov 1465, with paraphe of Petrimanus Burichet.

32 (ACV 228) Petrus Guillion de Nerioux filius Othonini Guillion dicti loci de Nerioux, die Veneris ante festum Nativitatis Domini 1464, with paraphe of Petrimanus Burichet.

32v (ACV 228v) Idem Petrus Guillion de Nerioux, die Martis post festum Sancti Anthonii Confessoris 1464, with paraphe of Petrimanus Burichet. With further subscription, Predicta omnia venditione, empta, rexcamibata, prefatus Frater Leonardus pro se etc. dicto confitenti laudavit etc. salvo jure habita etc., datum 03 nov 1465, with paraphe of Petrimanus Burichet.

(By a stupendous numbering error, fol. 33v (ACV 229v) is followed immediately and with no evident break in the text by fol. 34 (ACV 270). The above sequence ends at the bottom of fol. 34v (ACV 270v). ACV considers their fols. 230-269v as « folios manquants », but the fault is in the numbering, nothing is actually missing here.)

35 (ACV 271) Anthonius Guillion de Nerioux filius quondam Othonini Guillion eiusdem loci de Nerioux, die Martis post festum Sancti Anthonii [confessoris] 1464, with paraphe of Petrimanus Burichet, and a subscription similar to that below the previous item dated 03 nov 1465, with paraphe of Petrimanus Burichet, ending on fol. 38v (ACV 274v).

(The folios between 38v and 45 in the « A » section lack original folio numbers, and consist of rather different material, typically a series of brief notations, many lined out, in a very messy hand. These are abstracted below to the extent possible, concentrating on dates and names. They also contain a few folio references. The numbering of the ACV indicates that there is one blank folio after fol. 38 (ACV 274), which we might count as [39]. However, we found four of the missing folios from this sequence at the end of the « B » section, which we have inserted here. That leaves us without numbered folios 39 and 40, and several unnumbered folios and stray scraps, which we present at the end of the numbered sequence 1-47, regardless of their present position in the physical terrier. It is very tempting, in light of what has been found so far, to state that fols. 39-39v of the « rentier » section are, or were, blank, and that fol. 40, now apparently lost, contained an item concerning Johannes d'Oppens of Combremont-le-Petit, noted in the repertorium but there lined out.)

[Inserted and attached to the front of fol. 45] (ACV 284a-b) Several items concerning Franciscus Pidoux de Nerioux, 05 may 1482. (The fact that similar material for the same family occurs on the verso of the fol. 44 that was found in the « B » section suggests to us that the insertion here was originally part of the same sequence.)

(The subsection ends here, followed by a repertorium huius libri, that indexes the fols. of this subsection from 1 to 39, including one item, for Petrus Motitaz alias Guilly, on fol. xxxi bis, which has not been found, and with a single entry (Johannes de Oppens) on folio 40 (but this last entry has been thoroughly lined out with crayon). From fols. 1 *through* (or *to* – « usque ad folium xxxix ») 39, this repertorium follows the content closely. This repertorium, then, was apparently created for the « rentier » section before the existing folios 41-47 were added.)

(There are two folios numbered Cviii, 108, but this fact was missed when the ACV numbered the folios for the « digitization » project. Consequently, the ACV folio numbers diverge from the original foliation at this point. We designate two folios as 108a and 108b.)

(Fols. 135-135v are apparently blank, followed by the true fol. 136, which is designated by ACV as 136vc.)

136 [ACV 136vc] (This item is lined out, explained by a notation at the bottom, *Est alibi in libro licterarum*. The script is very different.) Nicodus Monachi, reconnaissance, with closing formalities, but lacking date, signature, and paraphe.

(Fols. 137-145 are blank.)

146 Nerioux (Modern pencil notation at the bottom of the page : *Les folios CXXXVII à CXLV étaient en blancs*. In spite of this notation, the ACV designates this folio as 137. There is also a second set of old folio numbers in the lower right corner, here beginning with i.)

146 [ACV 137] Petrus filius quondam Johannis Perrier de Nerioux, with closing formalities, but lacks signature and paraphe.

147v [ACV 138v] Prenominatus Petrus Perrier, die Veneris ante festum Nativitatis Domini 1465 (clear, but this may be an error for 1464, see next items), with signature and paraphe of Petrimanus Burichet.

(Fol. 172 is followed by fol. 175, and the second set of old folio numbers likewise jumps from 27 to 30. There is an explanatory modern pencil notation on fol. 175, Les folios 8²⁰ 13 et 8²⁰ 14 étaient en blancs. The digital images of fols. 174v and 175 show that the two blank folios have been cut out. ACV disregarded this fact in the new foliation.)

175 [ACV 164] Anthonius Guillion de Nerioux filius quondam Othonini Guillion eiusdem loci de Nerioux, incomplete, no closing formalities, date, signature, or paraphe.

176v [ACV 165v] Predictus Anthonius Guillion sepenominatus predicti loci de Nerioux, incomplete, no closing formalities, date, signature, or paraphe.

(Fol. 183v is blank. There is also a pencil notation on fol. 183, Les folios 9²⁰ 4 et 9²⁰ 5 étaient en blanc, and the image of fol. 186 suggests that the two blank folios have been cut out. The second old foliation likewise jumps from 38 to 45, suggesting (1) that the entire section beginning at fol. 146 was once a separate volume, and (2) that at least 5 folios had already been removed here before it was integrated with the first part of the « B » section of Fn 316. We found 2 of the missing 5 folios, 41-42, along with a pencil notation that les folios 43 à 48 étaient en blanc, a statement that may be misleading, at the bottom of this fol. 42, which bears the number 202 from the main foliation sequence of the « B » section. We think the more likely explanation for these irregularities is that the folios in the section bearing this additional foliation were rearranged before they were integrated with the rest of the volume.)

186 [ACV 173] Forel

186 [ACV 173] Johannes Grivet de Forel et Marmetus Grivet de Forel fratres filii quondam Johannis Grivet antenati de Forel, incomplete, no closing formalities, date, signature, or paraphe.

191 [ACV 178] Jamdicti fratres Mermetus et Johannes Grivet de Forel, incomplete, no closing formalities, date, signature, or paraphe.

192v [ACV 179v] Jamdicti fratres Mermetus et Johannes Grivet, incomplete, no closing formalities, date, signature, or paraphe.

193v [ACV 180v] Sepredicti Mermetus et Johannes Grivet dicti loci de Forel, 06 oct 1464, with signature and paraphe of Petrimanus Burichet.

195v [ACV 182v] Prenominati fratres Mermetus et Johannes dicti loci de Forel, 06 oct 1464, with signature and paraphe of Petrimanus Burichet.

[Fol. 196v, secondary foliation 75v, is followed by fol. 201, secondary foliation 41 ! See above before fol. 186 for notes on these irregularities.]

201 [ACV 184] Combremont loz Pictet (Secondary foliation 41)

201 [ACV 184] Johannes de Oppens de Combremont loz Pictet, 07 dec 1464, with signature and paraphe of Petrimanus Burichet.

(At the bottom of fol. 202, pencil notation, Les folios 43 à 48 étaient en blanc. The secondary foliation here is 42.)

(Fol. 202, secondary folio number 42, is followed by folio 209, secondary folio number 49. The intervening folios are apparently present and blank.)

209 [ACV 186] Mollens (=Morlens)

209 [ACV 186] (This item lined out, it appears to be a duplicate of the one on fol. 225, below.) Anthonius Ogueis de Brenles, 20 may 1465, with signature and paraphe of Petrimanus Burichet.

210 [ACV 187] Glaudius Girod de Cabanis supra Meldunum morans apud Montet parrochie de Mollens, de legato Anthonii Girod eius patris et Beatrisie filie dicti Nicodi Grinjoz de Montet eius matris, 10 may 1465, with signature and paraphe of Petrimanus Burichet.

212 [ACV 189] Claudius Girod predictus, 18 sep 1465, with signature and paraphe of Petrimanus Burichet.

(Fol. 213v is followed in the digital images by fol. 217. A pencil notation at the bottom of fol. 217 indicates les folios 114 à 116 étaient en blanc, and they may still be present.)

217 [ACV 191] Cultilia (=Curtilles)

217 [ACV 191] Johannes de Sarsens alias Jaquinoz de Lucens, die Lune ante festum Penthecostes 1465, with signature and paraphe of Petrimanus Burichet.

(Fol. 218v is followed by fol. 225, at the bottom of which a pencil notation indicates les folios 11²⁰ à 11²⁰ 4 étaient en blanc, but that notation does not account for fol. 219. The intervening pages, however, are apparently present and blank.)

225 [ACV 194] Mollens (=Morlens)

225 [ACV 194] Anthonius Ogueys de Brenles, 20 may 1465, lacks signature and paraphe, but otherwise it appears to be a copy of the same instrument on fol. 209 above, which is lined out, but which is signed.

226 Claudius Girod de Cabanis supra Meldunum morans apud Montet parrochie de Mollens, 19 may 1465, apparently a duplicate of the item on fol. 210, above, this copy lacks signature and paraphe.

228 Claudius Girod predictus, 18 sep 1465, apparently a duplicate of the item on fol. 212, above, this copy lacks signature and paraphe.

(Fols. 231-232v are blank.)

233 Cultilia (=Curtilles) (Pencil notation at the bottom of the page, les folios 11²⁰ 11 et 11²⁰ 12 étaient en blanc.)

233 Johannes de Sarsens alias Jaquinoz de Lucens, die Lune ante festum Penthecostes 1465, apparently a duplicate of the item on fol. 217 above, this copy lacks signature and paraphe.

(The text for the above item ends at the top of fol. 235, ACV 202. None of the folios that follow bear numbers from the main sequence of the « B » section. The image indicated as ACV 202v appears to show a blank page with a very faded half-sheet in a different hand containing descriptions of three properties somewhere in the vicinity of Moudon, apparently not a part of what precedes or follows. The next images are numbered and are recognizable as fols. 41-44 from the « rentier » section of the « A » section of Fn 316, beginning with items for Forel, from 1464. As these few additional pages of the « B » section appear to belong with the « rentier » part of the « A » section, we have moved all of them to that section, above, indicating by the prefix B their origin here.)
